THE GRAND ARMY OF THE REPUBLIC

When this photograph was taken in the nineties, the G. A. R. was a vigorous and flourishing organization, with posts in every Northern and many Southern States. Now only a small remnant remains of the many thousands that once comprised its membership. Of those shown in the photograph, both G. A. R. and drum corps, none are now living.

Roswell D. Whitcomb, whose profile is barely visible at the extreme right, gave his life in World War I. The Charlestown Post of the American Legion is named in his memory.

Town Warrant

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Charlestown, in the County of Sullivan, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Charlestown on Tuesday the fourteenth (14th.) day of March next, at nine o'clock in the forenoon to act upon the following subjects:

Art. 1. To choose the necessary Town Officers for their respective terms.

Art. 2. To consider the Budget. To raise such sums of money as may be deemed necessary for the maintenance of the poor, laying out and repairing highways, building and repairing bridges, street lighting, and for the necessary charges arising within the town.

Art. 3. To see if the town will vote to allow the selectmen to deliver the inventory blanks at the time of taking inventory.

Art. 4. To see if the town will vote to authorize the selectmen to borrow on notes on the credit of the town, such sums of money as may be necessary to meet current expenses in anticipation of taxes.

Art. 5. To see if the town will vote to raise and appropriate the sum of \$351.09 for Town Road Aid, the State to contribute \$1,404.33; this money to be used to improve class V roads.

Art. 6. To see if the town will vote to raise and appropriate the sum of \$400.00 for the purpose of co-operating with the State Forestry Department in regard to continuing white pine blister rust control.

Art. 7. To see what action the town will take in regard to appointing a finance committee for the ensuing year.

Art. 8. To see if the town will vote to accept all trust funds received for the perpetual care of lots in the cemeteries.

Art. 9. To see if the town will vote to replace the street light on North-West Street between the residence of Ernest Cochrane and Oscar F. Adams. (inserted by request).

Art. 10. To see if the town will vote to authorize the selectmen to improve Marcy Avenue from the cement road to accomodate the property owners living there at present, and raise and appropriate money for same. (inserted by request).

Art. 11. To see if the town will vote to extend the concrete sidewalk across the triangle at the corner of Main and Sullivan Streets, and raise and appropriate \$25.00 for the same. (inserted by request).

Art. 12. To see if the town will vote to construct a concrete sidewalk from Sullivan Street to the northerly end of the Congregational Church building, it being understood that the Church will assume one-half of the expense, and raise and appropriate \$150.00 for the same. (inserted by request).

Art. 13. To see if the town will vote to purchase 100 seats for the upper town hall, and raise and appropriate money for same. (inserted by request).

Art. 14. To see what action the town will take in regard to an appropriation for the purpose of advertising the attractions and resources of the town in connection with other towns in the Dartmouth-Lake Sunapee Region. (inserted by request).

Art. 15. To see what action the town will take in regard to raising the salary of the town clerk.

Art. 16. To see if the town will vote to petition the State Tax Commission to have an audit made by the Division of Municipal Accounting, and to make an appropriation to cover the expense of such audit.

Art. 17. To see what action the town will take relative to the installment of a new heating plant for the town hall, and raise and appropriate money for this purpose. (inserted by request).

Art. 18. To see if the town will vote to appoint a committee of three to look into the matter of some kind of a drainage system for the swamp located near the Sherwood Greenhouses, this committee to report at the next annual town meeting. (inserted by request).

Art. 19. To see what action the town will take relative to improving the toilet conditions in the town hall. (inserted by request).

Art. 20. To see if the town will vote to adopt the non-partisan ballot system for the election of town officials as provided in the Revised Laws of New Hampshire. (inserted by request).

Art. 21. To see if the town will vote to instruct the selectmen to instruct the Governor of the State of New Hampshire to send a request to the Congress of the United States, a plea that they pass an adequate bill for soldier voting that will enable every person in the armed forces to vote for Federal officers at the next Federal election. (inserted by request).

Art. 22. To hear the reports of agents, auditors, committees or officers heretofore chosen, and pass any vote relating thereto, and to transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-sixth (26th.) day of February, in the year of our Lord, 1944.

AUDITORS' REPORT

We, the undersigned Auditors of the Town of Charlestown, have examined the accounts as set forth in the accompanying schedules of the Selectmen, Town Treasurer, Treasurer of the Silsby Free Public Library, Water Commissioners, Town Clerk, Tax Collector, and Trustees of Trust Funds, and other Town Officers, and find them correct.

JOHN L. NELSON
ARTHUR C. MOORE
ALICE E. ADAMS

February 18, 1944

Health Officer's Report

During the past year we have had only a few cases of contagious diseases; chicken-pox, measles, whooping-cough and scarlet fever. These have been investigated and properly quarantined so that there was very little spread resulting.

As during the past, all children entering school have been vaccinated so that now nearly 100% of the school children have been vaccinated. This is done at the expense of the Town.

There have been samples of water from both the Village and North Charlestown sent to the State Laboratory nearly every month during the year. According to the State Board of Health these samples have shown a small degree of contamination.

Milk samples from local dealers and producers have been sent to the State Laboratory of Hygiene from time to time during the year. The quality has at all times been satisfactory.

No report has been received from any Child Health Conference or other Health Conferences as in former years.

Respectfully submitted,

LOUIS L. COMSTOCK, Health Officer

Report of Librarian

We have had some very nice books given to the library this year Victor H. Cahalane formerly of Charlestown, presented to the library a copy of the book which he wrote, "Meeting the Mammals." Mr. Ukers' encyclopedic work was given to the library by the National Coffee Department of Brazil as a good neighbor contribution to the spread of factual knowledge about coffee. This book sells for \$15.00 and is a valuable reference book.

Other donators are; Miss Ida Bracher, Mrs. Fullam Ripley, Miss Helen Hubbard, Miss Angeline Nutter, Mr. Frank Hamlin and the Daughters of the American Revolution.

The following people gave Magazines to the Library; Mr. and Mrs. William Miller, Mr. John Thomas, Mrs. Sumner Raymond and Mr. Frank Hamlin.

A special table has been used this year for the school students. Books that are on their reading list for book reports are kept on the table.

For Book Week in November; we had an exhibition of new books; also a short review of the books and a brief biography of the Authors.

In February, the librarian gave a talk on the new books in the library to the Daughters of the American Revolution.

ALICE CUSHING JENNINGS, Librarian

Monkey Ahoy!	West Lathrop
The Singing Tree	Kate Seredy

The Dartmouth-Lake Sunapee Region

The Legislature of 1937 authorized the establishment of six Regions, each comprising a group of towns suggested by the State Planning & Development Commission. The Dartmouth-Lake Sunapee Region comprises this town and 37 others in this section of the state. The Region is incorporated as a non-profit corporation and its affairs are supervised by a group of officers chosen annually. The Region employs a full time secretary who is paid by the state (not by the towns). Thus your region is a set-up established by law and the matter of whether or not it has sufficient financial support to render real service to your community rests with the voters of the towns. During its existence the Dartmouth-Lake Sunapee Region can point to the following accomplishments. Through the publicity it has issued it has brought visitors to every town, some have established summer homes and others have become permanent residents. It has been instrumental in bringing industries to several towns. It has inaugurated plans that have saved historic landmarks. It has sponsored paying summer attractions. It has been active in bringing about a survey of our mineral resources that has resulted in revenue to many towns and has conducted studies of new agricultural products.

By an appropriation not exceeding 1-100 of 1% of the assessed valuation the Region now asks the support of your town in continuing the program that has brought about the aforementioned results and to institute the following three projects which if carried through must result in added income to each of the 38 towns of the Region. (1) A research of the possibilities of establishing industries that will use as raw materials, minerals within our area and make a study of the feasibility of the production, processing and sale of several agricultural products that in the past have received but little attention. (2) To cooperate with each of the towns in preparing descriptive pamphlets

showing the attractions, natural advantages and resources of the community with the idea of eventually incorporating such material into a book descriptive of the whole Region. (3) To establish a system of Recreation Trails following back highways and little used roads leading to scenic areas and desirable locations in each of the 38 towns in the Region. As it is not deemed proper to devote more space in your Town Report to this subject, details have been omitted; however, letters of inquiry regarding any matter here mentioned will be welcome and given careful reply.

Address, Dartmouth-Lake Sunapee Region, New London, N. H.

SUPERINTENDENT'S REPORT

To the School Board of Charlestown:

I herewith submit my annual report for the fourteenth year as your Superintendent of Schools.

Only five of last year's force of efficient teachers are now teaching in this district. Mrs. Dora Sherwin is at the South School; Miss Alice Palmer second grade and Miss Susie Benway, first grade teacher in the Primary Building; and in the High School, Miss Anna Doherty teaches English and Miss E. Mary Payne, mathematics.

Twelve new teachers were hired to begin school in September. Mrs. Barbara Freese to teach home economics and biology; Miss Helen Thomas, commerce classes; Miss Hortense Levesque, languages and sociology; Miss Edith Noble, eighth grade and science; Mrs. Margaret Brown, fifth grade; Miss Lillian Loiselle, fourth grade; Mrs. Hilda Kane, third grade; Mrs. Olive Whitney, Principal and upper grades at Farwell School; Mrs. Edith Hadley, primary grades at Farwell School; Mrs. Miriam Gates, music at the Village Schools; Mrs. Leslie Currier, music at the Farwell School and Mrs. Margaret Carter, music at the South School.

During the year Mr. John Lylis, Headmaster of the High School joined the Navy, Mrs. Helen Chapman, principal of the grades, and Mrs. Hilda Kane, third grade teacher resigned. Miss Edith Noble was given the position of principal of the grades; Mr. Lee W. Thomas was elected headmaster; Mrs. Hildred Hackett was placed in charge of the third grade and Miss Alice Duffy, the sixth and seventh grades. The new teachers came very highly recommended.

So many changes in the faculty caused several moves in organization and confusion among the pupils but at the present time everything seems to be on an even keel down

a straight course and headed for a good finish. The older boys wanted a course in physics but at the beginning of the year no teacher could be found to teach it. However, Headmaster Thomas has changed one of the divisions of biology into a general science course which will cover all the most valuable parts of physics and some other subjects in which the pupils are especially interested.

Thus far we have found the teachers well prepared to fill their positions. We were especially lucky in finding in the middle of the year a new headmaster. Mr. Thomas has had experience in many lines of educational work and shows in his teaching and coaching not only that he knows his subjects but that he understands teachers, boys and girls and their problems and he has the ability and courage to be of help.

The Schools at North and South Charlestown as well as those of the first and second grades of the Village are in excellent condition, as far as instruction, discipline and general attitudes of pupils and teachers are concerned. Good work is being done in the Charlestown High School and the fourth grade and it is a pleasure to step into the third grade where truly superior work is being done as is evident from the rapid recovery in subject matter work and the good natured quietness of the room.

Grades six, seven and eight are crowded and not too well organized, which makes it hard for both pupils and teachers. Classes are held in the laboratories, music room, domestic arts room, manual arts room and the junior high room. Often classes are taught in a room seating from fifty to sixty pupils. The seventh and eighth grade pupils have double periods of domestic arts or manual arts on alternate days. They have, therefore, three study periods on one day and only one study period on the day following. Children find it hard to make good use of three study periods in one day unless they are alternated with recitation

periods. One period is not enough to learn the lessons and do other outside work for five subjects. We have tried several arrangements but the problems still remain. I truly believe it would be better to drop manual arts and domestic arts in the seventh and eighth grades and put more emphasis on those subjects in the senior high school. I have no doubt about the value of the subjects but the habit of work, the lack of confusion and the regularity of study periods would be of more value in developing character at the most critical time in life than any subject that we have taught in school.

We need two more home rooms for the grades. One for the seventh grade and one for the eighth grade. Each grade in the system is now so large that it is almost impossible to unite any two of them in the same room. The sixth and seventh grades now have the same home room and the eighth grade is given a part of the domestic arts room and their classes are held where ever space is found for them.

The health department is run efficiently. Mrs. Z. L. Hasham is carrying on the good work of inspection, examination and clinics. We also value the time, and advice given each year by Dr. Young. We try not to abuse his generosity, but it is appreciated.

There are several activities both by the children and for the children that have earned special mention. War bonds and stamps are sold each week in the grades, hot lunches are served in all of the schools at North Charlestown and the Village. Milk is served at South Charlestown. The boys and girls in the High School have been excused to help citizens when ever an emergency has arisen and athletic work, especially basketball at the Town Hall, has been carried on for the good of the boys and girls.

The Mother's Club has been very helpful this year.

Two members have worked each day on the noon lunches and the organizing and sponsoring of the recreation center has been a great move in the right direction. Many of the mothers canned vegetables for the noon lunch and I understand there has been several donations for the recreation center. I hope such citizens do not forget that there is a special allowance against income taxes for the value of any gifts to schools or for school purposes.

There is need for another organization, a parent-teachers club. Teachers often find fault with the homes when they have not visited those homes and really know nothing about them except from gossip and imagination. Every teacher should visit every home at least once a month but that seems impossible in these war times. Parents used to invite teachers into their homes but that seems to be rather out of date. It is also true that citizens often form their opinions about the schools and make many remarks about them when they have not visited them and really know nothing about them except from gossip and imagination. Every parent should visit the schools at least once a month but I fear that there would not be enough room for them in the present school rooms and visiting school seems rather on the decline. In a parent-teachers club there could be discussed rumors and theories concerning the schools and both teachers and parents could take part. Many things would be brought up that would be progressive and helpful and many wrong ideas would be better understood and forgotten.

The teacher situation is quite serious as can be noted from the many changes we have had in Charlestown during this year. While wages have been raised they do not meet the increases in taxes and the costs of living and they do not meet the salaries paid in other states or other districts in this state. I sent questionairs to the superintendents of twenty-six unions having small towns like our own in this state so that I might know what salaries are

being paid and what salaries are expected to be paid next year in grade positions and in small high schools. The report is too large to offer here. The study showed that the two types of positions in which we were most out of line with other unions were that of headmaster and that filled by normal graduates with several years of successful teaching. The average experienced teacher, normal graduate, in single grade this year was paid \$1,208.14. The increase next year expected to be \$77.05 and the superintendents felt that it should be \$153.23. We are paying this year \$1,112.50 average for the same type of teachers. I found two other items in the report that were of interest. Superintendents often made the remark that they had no rooms with as many pupils as ours and that boarding conditions were better than here except in a few cases. We can not offer practical teachers the same salaries as normal graduates nor beginning teachers the same as those with years of successful experience.

I placed advertisements in several New Hampshire and Vermont papers. I did not sponsor the articles written in the papers and copied far and wide but they were quite correct and while I did not like the publicity they brought results and I found good teachers for the positions that were vacant. I also learned other facts of value to the public. There are a number of teachers who would accept positions in single grades of not over twenty pupils, near railroad stations and bus lines, at high salaries if they could have board and room in a steam heated house near the schoolhouse where there were no children in the home. This has given the public the idea that there are plenty of teachers without positions. Teachers who really know how to teach and love to teach children, who feel that it is their duty to do something worth-while in these war times are hard to find.

It is generally thought that the State pays the expenses of the elementary school over and above five mills on the equalization valuation of the district. That was

the intention of the law, but during the last few years it has not worked out just that way. The State pays none of the costs of educating the high school pupils. It will not pay any of the costs of the elementary education that she has not approved and since the legislature has cut the appropriations for schools so small the approvals have been cut and cut on things needed in the schools of today. The State approves only \$5.00 per school for lights. Charlestown paid \$296.95 for lights last year or \$18.65 per room. Where we use several teachers to teach the seventh and eighth grade the State has allowed in years past only one and a half teachers salary at about \$900.00 a year on the average. The cost of instruction for those two grades is well over \$2,000.00 a year. The approval for transportation is below what we have to pay. The State Department have no funds for emergencies such as the transportation of new pupils or the opening of a new school in the middle of the year but will carry along the account as a debt to the district. The cities are not interested in these problems but they should be because their business men depend on the prosperity of the rural towns.

It would be a great help for equalization of the costs of education in this state if a law was passed providing up to \$1,500.00 for each district to help maintain the high school or to pay the tuitions and other expenses of high school pupils.

I wish to thank the Charlestown School Board for the interest and the work they have given, studying the school's problems and trying hard to make the school a success. I appreciate the kindness of the teachers and the willingness to do extra tasks such as rationing, selling war bonds and supervising halls, playgrounds and rooms at intermissions, and the children and citizens for their interest and help in the many school activities.

Respectfully submitted,

WALTER L. MASON,

Superintendent of Schools

REPORT OF SCHOOL NURSE

1943-1944

The results of the annual school dental clinic held March 22, 23 and 24, 1943 may be stated briefly as better health; better attendance; better school work; an aroused interest by the child and the parent in the value of preventive and corrective dentistry. Sixty-five pupils received 100 p. c. correction by Dr. William Stuart of Claremont. Total number of operations was 138 in a total of 25 clinic hours. The clinic was made possible by the co-operation of the parents.

A Western Electric Audiometer, supplied by the State Board of Education, was used to check the pupil's hearing scientifically. The detailed results for permanent filing returned to the superintendent of schools.

Below is a summary of the defects found at the time of inspection this year.

Defective hearing	11	Corrected	0
Faulty nutrition	17		10
Defective vision	9		7
Defective teeth	65		65
Enlarged tonsils	17		5
Pediculosis	4		4
Defective speech	6		0 improved
Poor posture	22		22 treated
Skin conditions	18		18

During December there were severe epidemics of colds and grippe. Parents and teachers have been cooperative in attempting to check the spread of infections among the school children. Every school child is taught the simple rules in the control of communicable diseases from the time he or she enters first grade.

Respectfully submitted,

ZEPHYRINE L. HASHAM, R. N.
